

Using Ivy Pay for payments:

Here's how it works:

1. Your therapist will send you an invite text via IVY Pay's secure system - this text will come from our system's phone number:

2. Tap on the link in your invite text to be taken to the secure 'Add Card' form.

3. Scroll down on the 'Add Card' form, add your card details, and tap 'Save & Pay'. Your card will be encrypted and stored on our secure servers, and will be charged for that day's session.

SAVE & PAY

Ivy Pay Step 3 3 / 4

4. Moving forward, you will receive a text confirmation any time your therapist uses IVY Pay to charge your card on-file. This will appear in the same thread as your original invite text. (Tip: if you ever need to update your card details, just tap on the invite link and follow Steps 1-3 above.)
